- HTML5, CSS3, JavaScript (ES6+) - Responsive Web Design - React.js / Bootstrap - DOM Manipulation - UI/UX basics	- Node.js - Express.js - RESTful API development - MySQL / PostgreSQL - Databases / CRUD operations	- Git & GitHub - VS Code - Postman - NPM	- Strong problem-solving ability - Team collaboration - Quick learner - Time management - Communication skills

PROFESSIONAL EXPERIENCE

Front-End Developer Intern — Cognifyz Technologies (Task Based) (Nov 2025 – Dec 2025)

Worked on multiple front-end projects including responsive web design, API integration, and interactive UI development using HTML, CSS, JavaScript, and Bootstrap. Improved user experience through dynamic features and form validation.

Back-End Developer Intern — CodeAlpha (Task Based) (Feb 2026 – March 2026)

Built backend applications and REST APIs while working with databases and server-side logic. Gained practical experience in backend frameworks, routing, and building scalable applications through real-world projects.

PROJECTS

• Pet Service Website (Freelance Project) : [Click Here](#)

Developed a responsive pet care service website for a freelance client featuring service listings, booking options, and contact information. Focused on clean UI design and user-friendly navigation to enhance customer experience.

• Real-Time Chat: [Click Here](#)

Developed a real-time chat application using Express.js with server-side routing and live messaging functionality. Demonstrated strong backend and full-stack development skills.

• Spotify Clone Website: [Click Here](#)

Developed a Spotify-inspired music streaming UI with responsive design and interactive player controls. Demonstrated strong front-end skills in layout structuring and user interface development.
